## Financial Policy

**Payment is Required at the time service is rendered:** Please present your insurance card(s) to our office staff for photocopying and benefit eligibility verification. You will be responsible for any copay amount at the time of your visit. If you do not have insurance, 100% of the balance will be due at time of service. For your convenience, we accept MasterCard, Visa, American Express and Discover, as well as cash and checks.

In the event your check is returned for any reason, your account will be charged \$25.00. In the event it is necessary for your account to be placed with an outside collection agency or attorney, you will be assessed an additional 30% of the balance to recover the collection charges.

**Insurance:** We file your medical insurance as a courtesy. We will warn you if we feel a service may not be covered, however, **it is ultimately your responsibility to understand your insurance benefits as to what services will or will not be covered.** If your claim is not paid within 90 days, the claim will be transferred to patient responsibility. If timely payment is not received, the amount may be referred to a collection agency or attorney.

**Balances Due:** Your Insurance plan is required to send you an Explanation of Benefits (EOB), which will state any balance remaining to be paid by you. At check in, your credit card information will be obtained and kept securely until your insurances have paid their portion and notified us of the balance due, if any. If your Insurance carrier assigns any additional patient responsibility amounts for deductibles, coinsurances, or non covered charges after the claim is processed; we will charge your credit card on file for this payment.

I authorize the office to charge my card on file for any balance due following receipt of any applicable insurance payments in connection with healthcare services rendered by the office. Following each service, the office will submit any relevant insurance claim on my behalf. Upon receiving notice of adjudication of such insurance claim, the office may charge my card on file for the amount of patient responsibility, according to my insurance company. I understand that the office will not be required to provide any further notice to me before charging my card. The maximum amount that the office will charge my card under this authorization is \$500. I understand that I will be responsible for any remaining amount due after the office charges my card or if the office cannot charge my card for any reason.

\*Please bring the credit card you would like to save on file to your initial appointment\*

This will in no way compromise your ability to dispute a charge or question your insurance company's determination of payment.

# Consent for Transfer of Biological Specimen

Florida law (Section 817.5655, Florida Statutes) prohibits the sale or transfer of a person's biological specimen from which DNA can be extracted to a third party without the express consent of such person.

During the course of your care at Family First Podiatry, it may be medically necessary to obtain a blood, urine, stool, tissue or other type of biological specimen for analysis. This analysis **will not** involve the examination of your DNA to identify the presence and composition of genes in your body. After the analysis has been performed and the sample is no longer needed, it will be stored as medical waste and then transferred to a third party for disposal in accordance with all local, state, and federal requirements.

It may also be the case that a biological specimen (such as blood, urine, hair, bodily fluids, etc..) from you may be deposited on medical instruments, bedding, clothing, or other objects. These objects may then be transferred to a third party for cleaning or disposal.

By signing this document, you affirmatively state that it is your intentional decision to consent to transfer of any and all biological specimens collected by or deposited with Family First Podiatry, to a third party as set forth above. This consent does not authorize the sale or transfer of a biological specimen for the purpose of DNA analysis.
